PERFORMANCE
 has built our business...®

Henkels & McCoy at a Glance...

Henkels & McCoy is one of the largest privately held engineering and construction firms serving the gas, power, communications, and information technology industries. We have more than eighty offices strategically located from New England to Hawaii.

Focus on Project Management

Henkels & McCoy's formalized Project Management Program represents a company-wide commitment to excellence. Formal and on-line training focuses on a variety of skill sets including job tracking, cost management, leadership, client management, and communications skills. Our customers realize the benefits of our efforts through improved efficiency and reduced costs relative to scheduling, material management, self-inspection, reduction of administrative expense through electronic communications, and sophisticated tracking mechanisms.

Commitment to Safety

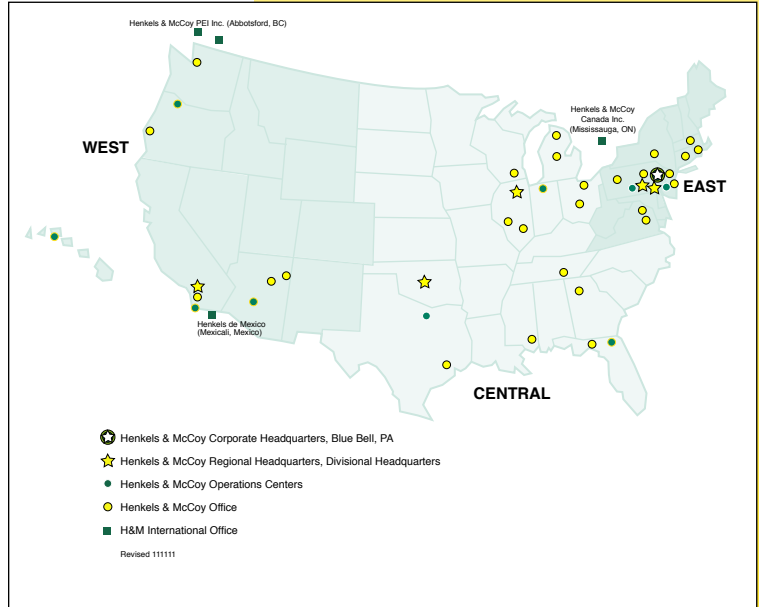

Safety is a value at Henkels & McCoy and represents a commitment to protect our employees, customers, and the public. Based on this philosophy, we have created a corporate safety program that is well known throughout the industry and assures that our safety performance results from continual evaluation and implementation of company and industry-wide best practices. In addition to our own initiatives, we will obviously uphold the standards and procedures adopted by our customer.

Our systematic approach to safety has received recognition from the National Utility Contractors Association, Pipe Line Contractors Association, Mechanical Contractors Association of America, Texas Safety Association, and Liberty Mutual Insurance Company.

Serving These Markets

- Pipeline and Natural Gas
- Power
- Communications
