Customers demand innovative solutions for speed, accuracy, precision, and safety, all at a competitive price. Henkels & McCoy's survey teams use the appropriate technology to achieve or exceed expectations. By using the most advanced technologies available our survey teams produce accurate results for our clients and sets the standard for excellence.

With over 85 years of experience in infrastructure engineering and construction, Henkels & McCoy has the capability and capacity to provide design-build services nationwide. Our company knows what it takes to not only inspect and manage what has been built, but also knows how to build what is inspected.

PERFORMANCE has built our business...®

Why Henkels & McCoy

Our commitment to you is far more than professional, it is personal.

H&M at a Glance

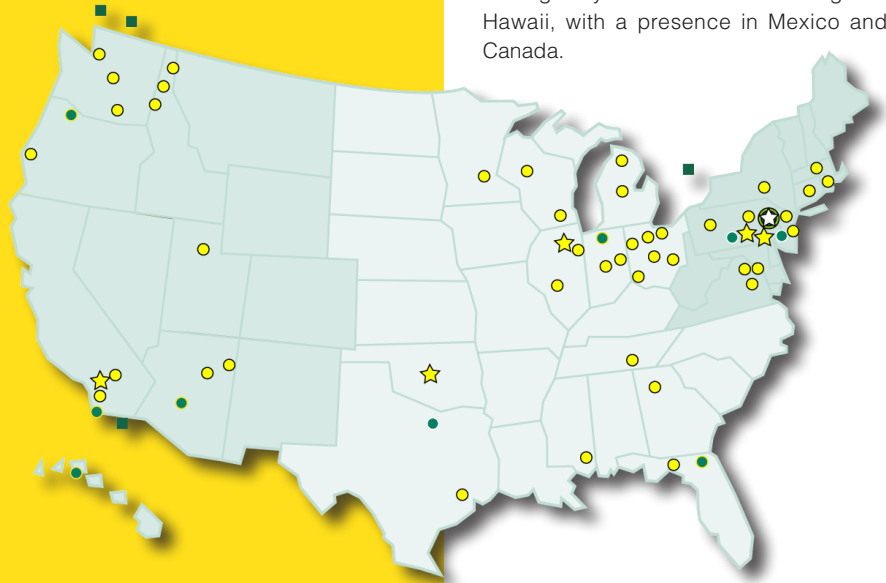

Henkels & McCoy is one of the largest privately held engineering, network development, and construction firms serving the communications, information technology, and utility industries. We have more than eighty offices strategically located from New England to Hawaii.

Focus on Project Management

Henkels & McCoy's formalized Project Management Program represents a company-wide commitment to excellence. Formal and on-line training focuses on a variety of skill sets including job tracking, cost management, leadership, client management, and communication skills. Our customers realize the benefits of our efforts through improved efficiency and reduced costs relative to scheduling, material management, self-inspection, reduction of administrative expense through electronic communications, and sophisticated tracking mechanisms.

Commitment to Safety

Safety represents a commitment to protect our employees, customers and the public. Based on this philosophy, we have created a corporate safety program that is well known throughout the industry and assures that our safety performance results from continual evaluation and implementation of company and industry-wide best practices.

National Footprint

Henkels & McCoy has over 80 offices strategically located from New England to Hawaii, with a presence in Mexico and in Canada.

In addition to our own initiatives, we will obviously uphold the standards and procedures adopted by our customer.

Investment in Quality

Quality assurance requires collective action and accountability. True continuous improvement is a result of systematic planning, execution, coordination and verification. Our belief in Peak Performance cuts across all areas of our business and comes to life through our Corporate Quality Assurance Group. This unit has a central role in developing processes and mechanisms to stimulate consistent, proactive dialogue with customers throughout the relationship.

The Bottom Line

Our integrity and unwavering focus on safety, quality and accountability have driven our consistent, organic growth since 1923. With an uninterrupted history of family leadership since the beginning, our commitment to you is far more than professional, it is personal.

HENKELS & MCCOY®

**Our commitment to Performance is second
only to our commitment to Safety**
