PERFORMANCE
has built our business...®

Real Value Where It Counts

Land Surveying Services

Customers demand innovative solutions for speed, accuracy, precision, and safety, all at a competitive price, and Henkels & McCoy's survey teams use the appropriate technology to achieve or exceed expectations. By

using the most advanced technologies available, our survey teams produce accurate results for our clients and set the standard for excellence. With over 85 years of experience in infrastructure engineering and construction, Henkels & McCoy has the capability and capacity to provide design-build services nationwide. Our company knows what it takes to not only survey what has been built, but also how to build what has been surveyed.

Why Henkels & McCoy.

Our commitment to you is far more than professional, it is personal.

H&M at a Glance

Henkels & McCoy is one of the largest privately held engineering, network development, and construction firms serving the communications, information technology, and utility industries. We have more than eighty offices strategically located from New England to Hawaii.

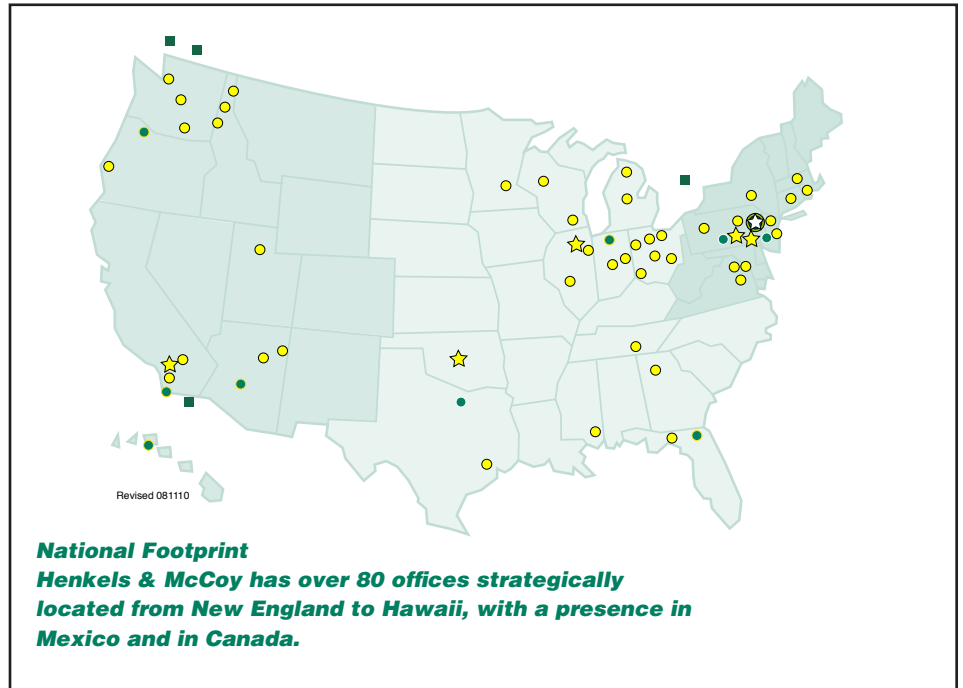

Focus on Project Management

Henkels & McCoy's formalized Project Management Program represents a company-wide commitment to excellence. Formal and on-line training focuses on a variety of skill sets including job tracking, cost management, leadership, client management, and communication skills. Our customers realize the benefits of our efforts through improved efficiency and reduced costs relative to scheduling, material management, self-inspection, reduction of administrative expense through electronic communications, and sophisticated tracking mechanisms.

Commitment to Safety

Safety represents a commitment to protect our employees, customers and the public. Based on this philosophy, we have created a corporate safety program that is well known throughout the industry and assures that our safety performance results from continual evaluation and implementation of company and

industry-wide best practices. In addition to our own initiatives, we will obviously uphold the standards and procedures adopted by our customer.

Investment in Quality

Quality assurance requires collective action and accountability. True continuous improvement is a result of systematic planning, execution, coordination and verification. Our belief in Peak Performance cuts across all areas of our business and comes to life through our Corporate Quality Assurance group. This unit has a central role in developing processes and mechanisms to stimulate consistent, proactive dialogue with customers throughout the relationship.

The Bottom Line

Our integrity and unwavering focus on safety, quality and accountability have driven our consistent, organic growth since 1923. With an uninterrupted history of family leadership since the beginning, our commitment to you is far more than professional, it is personal.
