Power Transmission

With more than 200,000 miles of high voltage transmission lines across the United States, Henkels & McCoy (H&M) constructs and maintains the critical infrastructure that powers the country. Whether aerial or underground, over mountains or through open fields, H&M has the expertise to tackle challenging terrain in adverse conditions to safely and efficiently build transmission infrastructure.

From securing construction permits to wire pulling, We can handle every aspect of the project while adhering to budgets, regulations, and system outage constraints.

Our vast project history includes high-quality work on a wide range of transmission projects for both new and upgraded systems, with overhead installations to 765 kV and underground installations. H&M brings a century of experience and reliability to every project, delivering safe, cost-efficient solutions to transmission projects.

Aerial

- Installations through 765 kV
- Structure Replacement
- Reconductoring
- OPGW Installation
- Foundations
- Helicopter-supported Work
- Emergency Response
- Live Line Construction

Underground

- Cable Pulling
- Manhole and Conduit
- Duct and Vault Installation
- Trenching
- Directional Drilling
- Splicing and Testing

PERFORMANCE HAS BUILT OUR BUSINESS—THE BUSINESS OF CONNECTIONS.

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. Our vigilant evaluation and implementation of company and industry-wide best practices make certain H&M maintains the absolute highest safety standards to protect our workers, our clients, and our communities. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction firm providing critical infrastructure design, construction and maintenance services for the power, oil & gas pipeline, gas distribution, and communication markets throughout North America. Founded in 1923, Henkels & McCoy adapts a century of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
