Power Distribution

H&M delivers power distribution planning, engineering, construction, troubleshooting, and repair services to a wide range of utility, industrial, and municipal clients. The firm is a leading provider of solutions for all aspects of power distribution on energized, de-energized, underground, and overhead distribution facilities.

Anchored by a commitment to excellence and a passion for continuous improvement, H&M's disciplined project approach results in outcomes that save clients time and expense. H&M is skilled in distribution work through 69 kV and has expertise in completing a variety of objectives, including system upgrades, expansions, and integration of distributed energy resources.

Henkels & McCoy also has the cutting-edge techniques and trained teams to help clients meet the driving imperative for a more efficient and robust smart grid. H&M delivers optimization solutions that increase resiliency, reliability, and better balance power delivery to homes, businesses, and communities. With extensive resources, locations across the country, and a large fleet of specialized equipment, H&M is fully equipped and ready to respond to clients' needs.

PERFORMANCE HAS BUILT OUR BUSINESS—THE BUSINESS OF CONNECTIONS.

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. Our vigilant evaluation and implementation of company and industry-wide best practices make certain H&M maintains the absolute highest safety standards to protect our workers, our clients, and our communities. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction firm providing critical infrastructure design, construction and maintenance services for the power, oil & gas pipeline, gas distribution, and communication markets throughout North America. Founded in 1923, Henkels & McCoy adapts a century of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
