

Wireless Technology

Henkels & McCoy (H&M) is a recognized authority in the rapidly evolving wireless communications industry, building the networks that power enterprises, move information, and connect people with one another and the world. The firm delivers end-to-end design, construction, and maintenance services for various entities throughout the country, including commercial, public utilities, and government facilities.

H&M is well-versed in a full array of engineering and planning services. The firm supports vital communications infrastructure with both inside plant (ISP) and outside plant (OSP) services, with expertise in ISP small cell and iDAS deployment and management, and OSP small cell and DAS deployment and fiber backhaul. H&M's breadth of capabilities also includes network and RF electronics projects, fiber optic backbones, and microwave systems.

H&M is dedicated to ensuring the long-term value of communications infrastructure. The firm constructs flexible and sustainable wireless networks and optimizes system integrity with the most advanced technologies. From project management to maintenance, H&M has the experience, multi-discipline workforce, and state-of-the-art capabilities to provide customer-specific wireless solutions or full project management services that ensure continuity, reliability, and performance.

Planning

- Site Engineering/Design
- Permitting
- Civil
- Testing
- Overall Project Management
- Engineering Support for Site Acquisition/Zoning

Delivery

- WiFi
- Fiber Optic Backbones
- Line and Antenna
- Network and RF Electronics
- Microwave Systems
- Power Space Antenna/Cable Installation
- Equipment Upgrade Installation
- OSP
 - DAS Deployment
 - Small Cell Deployment
 - Material Procurement/Management
 - Fiber Backhaul
 - Testing /Turn-up
 - Project Management
 - Maintenance
 - Emergency Restoration
 - Storm Remediation
- ISP
 - DAS Deployment
 - Small Cell Deployment
 - Material Procurement/Management
 - Project Management
 - Service/Maintenance
 - Emergency Restoration

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. This vigilant evaluation and implementation of company and industry-wide best practices make certain H&M maintains the absolute highest safety standards to protect our workers, our clients, and the community. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction, firm providing critical infrastructure design, construction and maintenance services for the power, oil & gas pipeline, gas distribution, and communications markets throughout North America. Founded in 1923, Henkels & McCoy adapts over 95 years of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
