

Gas Distribution

Henkels & McCoy (H&M) offers a complete range of comprehensive natural gas distribution project management and construction services, incorporating the most modern methods of installation for all types and sizes of pipe for residential, commercial, and industrial applications. With a respected reputation and experienced leaders and crews, the firm develops solutions to efficiently meet clients' construction, enhancement, and government-mandated goals.

Having performed gas distribution work in open rural surroundings and congested urban areas, H&M's knowledgeable construction teams use a rigorous project management approach to address the specific requirements for every job in every environment. Experts in horizontal directional drilling (HDD), the firm can quickly and economically install pipelines with precision and minimized impact on the environment, even in the most challenging situations.

H&M offers clients decades of field expertise, project management proficiency, and long-term, established relationships with communities and local municipalities across the country. Through investment in dedicated personnel and resources, the firm has established a leadership position in Operator Qualification training, going above and beyond regulations and expectations to ensure our teams are highly qualified. In addition to new main installations and renewal programs, H&M offers innovative solutions that address challenges ranging from leak repair and integrity management, to pipeline anomaly repair and meter and regulator services.

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. This vigilant evaluation and implementation of company and industry-wide best practices make certain H&M maintains the absolute highest safety standards to protect our workers, our clients, and the community. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction firm providing critical infrastructure design, construction, and maintenance services for the power, oil & gas pipeline, gas distribution, and communications markets throughout North America. Founded in 1923, Henkels & McCoy adapts over 95 years of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
