Rock Drilling Services

Keeping with the tradition of being among the industry's leaders in engineering and construction, Henkels & McCoy owns and operates state-of-the-art Rock Drill trucks, which have revolutionized pole line excavation.

The truck and operator can excavate a 20" bit, 10' deep pole hole through all types of rock. Larger diameter holes can also be accomplished through pattern drilling. The onboard compressor is 1,000 CLM at 150 PSI, with the reach up to 22 feet.

We provide this specialized drilling to power and communications utilities and contractors who need to dig comparable holes for various purposes. The Rock Drill, compressor, and operator function as a unit and are available to dig as few or as many holes as needed. This service is available on a per-hole or per-job cost basis and can be provided as part of a complete construction contract executed by Henkels & McCoy, or as a stand-alone service in preparation for other tasks.

Benefits

- Greater Reach
- More Punch
- Fast & Economical
- No Equipment Abuse
- Fixed/Known Costs
- Mobile

Center Mounted Derrick Digger Rock Drill Specifications

- **Digs** – 18 and 22 inches diameter, 10 feet deep
- **Mobile** – Truck mounted
- **Reach from Truck** – 22 feet maximum
- **Holes** – Vertical and slight angles
- **Drilling Pressure** – 4,000 lbs. combined weight
- **Power** – Onboard 1,000 CFM/150 PSI air compressor
- **Operator** – Supplied with equipment
- **Minimum Working Boom (sheave) Height** – 16 feet

PERFORMANCE HAS BUILT OUR BUSINESS—THE BUSINESS OF CONNECTIONS.

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. Our vigilant evaluation and implementation of company and industry-wide best practices make certain H&M maintains the absolute highest safety standards to protect our workers, our clients, and our communities. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction, firm providing critical infrastructure design, construction and maintenance services for the power, oil & gas pipeline, gas distribution, and communications markets throughout North America. Founded in 1923, Henkels & McCoy adapts a century of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
